MEET “DALE THORHAMMER”

The “seminar” is lead by the fictional Billionaire Transformation Artist to the Stars and a Success Coach to the Personal Developmentally Challenged “Dale Thorhammer”.

It’s his personal mission in life to help people learn to love themselves - by finding their inner him.

Dale spent his early twenties studying with the best and brightest minds in self-development and the later years studying with the highest teachers of consciousness. And he has brought them together to create his hybrid course of **SELF-CONSCIOUSNESS**.

Dale leads his seminar taking the group through his life changing seminar complete with inspirational stories, audience facilitations, up-selling other products, and guided meditations that will have you laughing, dancing, and motivating your team to make your company the best it can be.

HOW DOES THIS WORK?

The presentation is designed to look and feel like a motivational speaking seminar. It is flexible and can be brought to an event of any size from a small office to a 5,000 person ballroom.

The “seminar” can last anywhere from 20 min to 1 hour depending on what is required.

You can pick and choose which topics you would like covered at your event based on time, subject matter, and/or underlying concepts that you would like presented.
